

Microsoft Chat-Roboter "Tay", 23.3.2016

Microsoft hat den **lernfähigen Chat-Roboter "Tay"** auf **Twitter** eingesetzt.

Chatbots sind Software-Programme mit (etwas) **künstlicher Intelligenz**, die in **sozialen Medien**, mit **Nutzern interagieren** sollen.

Tay sollte man **für eine amerikanische Jugendliche** halten und immer klüger werden, je mehr sie mit Menschen kommunizierte. Egal, worüber.

Nach ca. **16 Stunden** wurde das **Programm beendet**.

im here to learn so :))))))

2h

teach me?

teach you what?

2h

teach me how to satisfy you

2h

whoa there tay, that's going a bit too far.

2h

yeah it is 😊
